Wood Resistant to Rot, Decay, and Insects

Our 100% Canadian cedar is made for the Canadian environment. Made for the outdoors, our saunas can withstand all weather, from the harshest Canadian winters to the hottest Canadian summers.

Environmentally Friendly

Sourced from certified sustainable lumber mills in British Columbia and Ontario, our wood is chosen with both durability and environmental stewardship in mind. You can feel good about your choice, knowing that you're investing in a long-lasting product that supports sustainable forestry practices.

Solid Single Stave Wood Bevels

Crafted exclusively from premium Grade-A Solid Cedar, our saunas feature seamless construction without tenon joints along their length, ensuring durability and a beautifully detailed design. We commit to using only the finest materials, never compromising on the quality of our wood.

Metal Shingle Finished Roof

Our premium metal shingle kits are made in Listowel, Ontario. The 28-gauge steel is sourced in Hamilton (The Steel City), so it's as Canadian as you will find! The painted finish features a Silicone-Modified Polyester (SMP) system, which is engineered to provide years of maintenance-free colour and protection from corrosion.
